APEEJAY SCHOOL

10TH CBSE

My overall experience till now with Alpha Study is great . I have been studying in Alpha for the past two years . The teachers are great and the classes are extremely interactive and fun . One great point about Alpha in my perspective is that the teachers don't dismiss our doubts however trivial they may be . They also encourage us to try to solve problems ourselves and motivate us to work hard . They also clear topics in such a manner that we remember them very well . The teachers make the process of learning extremely enjoyable even with subject we are not very comfortable with. I'm thankful to all the teachers and other members for cooperation for this great academic journey and to find a correct path in life.
